

SYMBIO FCELL

A solution for Zero Emission City Center

Grenoble, December 3rd 2015

Somewhere
in Asia ?

WELCOME TO PARIS!

© Le Monde

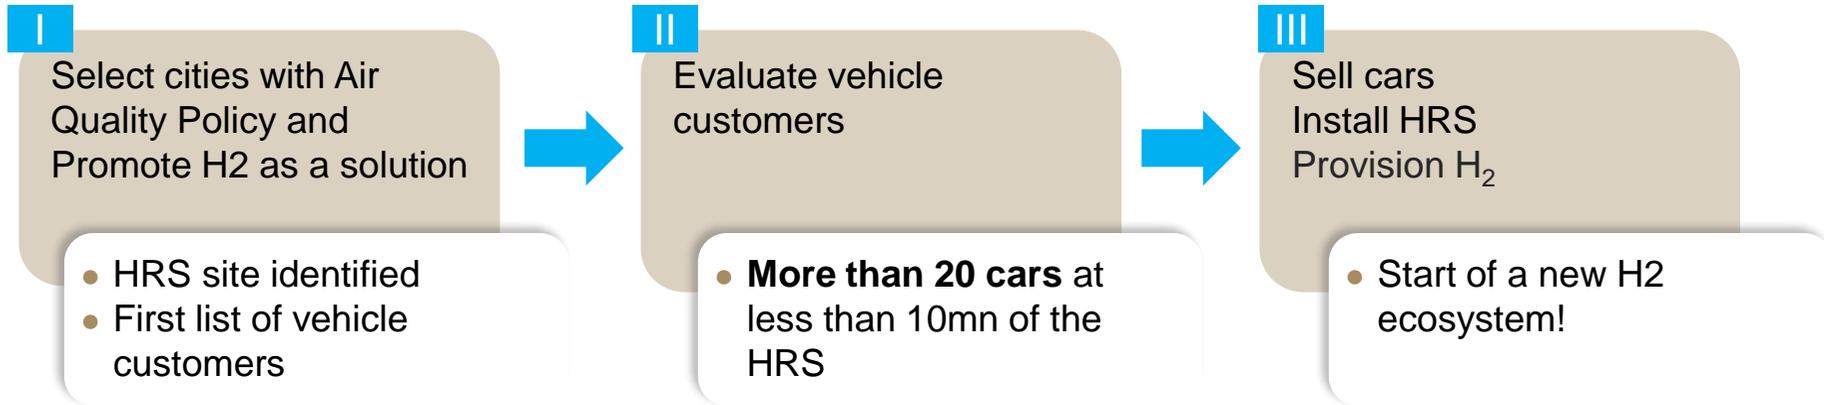

A FIRST MAJOR PROJECT: HYWAY

CLUSTER: AN HYDROGEN STATION IS TO BE SET UP WHEREVER A NEED FOR A OF AT LEAST 20 FUEL-CELL LCV IS IDENTIFIED

3-Step sales model

Thanks to Local Hydrogen Ecosystems... « Chicken & egg » problem solved !

OUR EFFORTS ALREADY TRANSLATE INTO A PIPELINE OF OVER THAN 40 H₂ STATIONS IN FRANCE BETWEEN 2015-2018

6 HRS already existing:

- Saint-Lô (CG 50)
- Lyon (CNR)
- Grenoble (Air Liquide/Cofely/GEG)
- Dole (Solvay/Air Liquide)
- Luxeuil (La Poste)
- Albi (Circuit)

3 HRS financed at 70% by the FCH-JU 2014 call, open 2016-2017:

- Rodez
- Paris Ivry S/Seine
- Sarreguemines

9 HRS financed at 70% by the FCH-JU 2015 call, open 2017-2020:

- Lyon
- Valence
- Montélimar
- Bordeaux
- Nantes
- Paris – Sud
- Paris – Nord
- Rouen
- Nancy

15 HRS financed at 50% by TEN-T in Normandie, open 2016-2017:

- Area = Basse Normandie + Neighborhood
- Principle = prefigure a dense network of HRS at regional scale
- Detailed localization = ongoing process

Other territories involved in H2 Mobility projects

THANK YOU
